

ProSpect™ Quick Start Guide

Getting Started – Initial Checklist

- My mobile device meets minimum requirements. See the [ProSpect User Guide](#) for more details.
- I have Manager SE version 8.0 or higher installed on my shop computer.
- My mobile device is connected to the same network as my shop computer.
- I have my ProDemand.com/ShopKeyPro.com username and password.

1 Login to Mobile/Device Setup

In Manager SE, go to **Configurations > Mobile/Device Setup**. Then, login with your shop's main ProDemand.com/ShopKeyPro.com username and password.

The screenshot shows the Mitchell 1 TeamWorks SE software interface. On the left, the main dashboard displays the Mitchell 1 and ShopKey logos and a message about product capacity. On the right, the 'Configurations' sidebar is open, with 'Mobile/Device Setup' highlighted and a red arrow pointing to it. To the right of the sidebar is the 'Authentication Required' dialog box, which contains a 'ProDemand / ShopkeyPro Shop Account Credentials' section with 'Username' and 'Password' input fields, a 'Need Help? Click Here.' link, and 'Login' and 'Cancel' buttons. Red circles and arrows indicate the sequence of actions: (1) clicking the 'Mobile/Device Setup' option in the sidebar, and (2) clicking the 'Username' field in the login dialog.

2 Download and Install ProSpect App

On your mobile device, download and install "ProSpect for M1-SK".

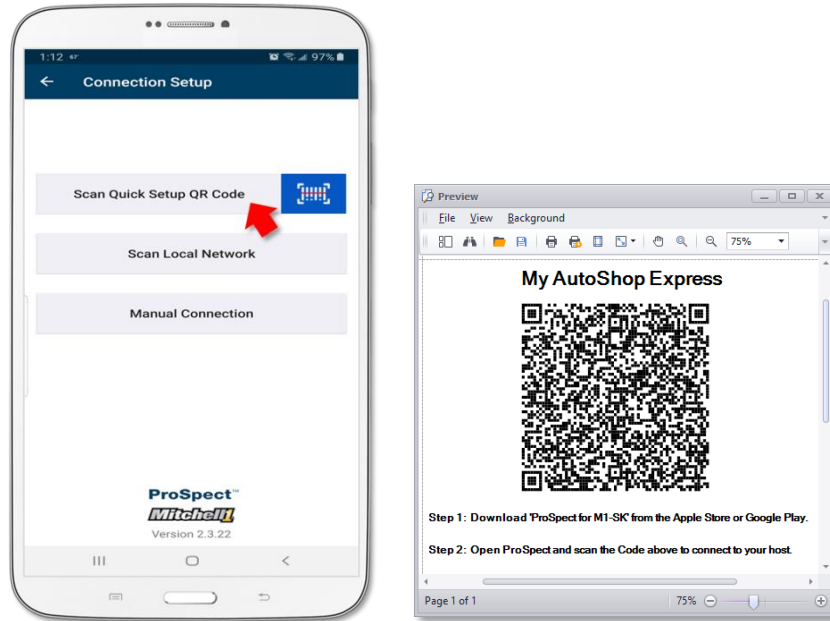

3 Configure General Settings

Click on **General**, and then click **Print Quick Setup**.

The screenshot shows the 'Mobile Configuration & Setup' window. The 'General Settings' tab is active, displaying instructions to find the ProSpect app on the App Store or Google Play. Below this are sections for 'Device Access Control' (with an 'Access Password' field containing 'BTCethLINK'), 'Service Settings' (with a 'Port Number' dropdown set to '9000'), and 'Mobile Setup Connection' (with a 'MYAUTOSHOPEXPRE (host)' field containing 'http://10.15.163.134:9000'). A red arrow points to the 'General' tab in the left sidebar, and another red arrow points to the 'Print Quick Setup' button at the bottom. To the right, a 'Preview' window shows a QR code and the text 'My AutoShop Express'. Below the QR code, it says 'Step 1: Download ProSpect for M1-SK from the Apple Store or Google Play.' and 'Step 2: Open ProSpect and scan the Code above to connect to your host.'

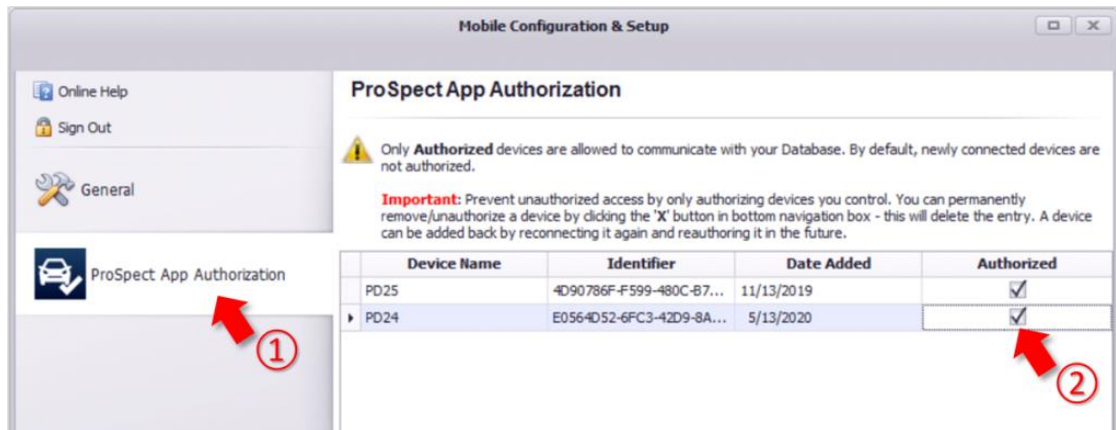

4 Scan QR Code

In the ProSpect app on your mobile device, click on **Scan Quick Setup QR Code** and scan the QR code in step 3.

5 Authorize Device

Go to **Manager SE > Confirmations > Mobile Device/Device Setup > ProSpect App Authorization**. Authorize the associated mobile device by clicking the checkbox.

Your mobile device is now ready to use ProSpect for Manager SE. Please refer to the ProSpect User Guide (link below) for instructions on customizing and conducting your vehicle inspections.
